

Böttcher Offset 4050

Premium Water Miscible Roller and Blanket Wash

Uses

Böttcher Offset 4050 is a washing agent for cleaning rubber rollers, printing blankets and printing plates. This wash was designed for web presses and for sheetfed presses where a medium-slow drying wash is preferred. Böttcher Offset 4050 is suitable for both manual cleaning and use in automatic systems.

Characteristics

- carefully selected solvents protect rubber compounds against shrinking and swelling
- contains no chlorinated solvents
- safe for conventional NBR rubber rollers and blankets
- water miscible
- flashpoint 105°F (40° C)
- medium drying speed assures efficient and thorough cleaning

Application

Follow the automatic washing system manufacturer's operating instructions. We recommend matching the parameters of the washing unit to Böttcher Offset 4050. Make program adjustments as needed.

It is recommended that Böttcher Offset 4050 be diluted with water 20-30% when used as a manual roller wash.

If manual cleaning blankets with a hand rag, wear protective gloves during application. Follow all press safety instructions. When cleaning blankets manually, dilute Böttcher Offset 4050 with 20-30% water.
