

Böttcher PK6

Premium Water Miscible Roller and Blanket Wash

Uses

Roller and blanket wash for web and sheetfed presses. Particularly suitable for automatic roller and blanket cleaning units on web and sheetfed presses.

Characteristics

- high solvency, excellent cutting power
- flash point >105°F (40°C)
- water miscible
- very efficient wetting of blanket and roller surfaces
- leaves no residue, rinse with water
- medium evaporation rate
- good draining behavior in the lines and reservoirs of blanket washing units
- reduces need to clean washing units
- value priced

Application

Follow the automatic washing system manufacturer's operating instructions. If manual cleaning with a hand rag, wear protective gloves during application. Follow all press safety procedures. Böttcher PK6 is used undiluted when manual cleaning. Rinse with water.
