

Boettcherin UV-Lite

UV Roller and Blanket Wash

Uses

UV-Lite is a very economical roller and blanket wash for use with UV and EB inks.

Characteristics

- will not harm EPDM rubber
- safe for conventional NBR rubber rollers and blankets
- completely water miscible
- flash point >112°F (44°C)
- contains no aromatic or aliphatic hydrocarbon solvents
- medium drying speed assures efficient and thorough cleaning

Application

Follow the automatic washing system manufacturer's operating instructions. We recommend matching the parameters of the washing unit to Boettcherin UV-Lite. Make program adjustments as needed.

If manual cleaning with a hang rag, wear protective gloves during application, follow all press safety instructions.

If manual cleaning, use Boettcherin UV-Lite undiluted. Apply to the blanket and rise with a water dampened rag.
